I am a determined IT undergraduate, looking for deployment into a workplace. I have studied for several years and carried out few work experience placements and I have always enjoyed them and excelled in them. I have studied very hard and I am looking forward to translating the fruit of my vigorous labor into contributing for a progressive organization like yours.

Work Experience

Frontend Developer

PROSHORE ready-to-code dev teams · Kathmandu, Nepal

August 2022 to present

- In-depth understanding of the entire web development process (design, development and deployment).

Personal Projects

All 6 (The Dice Game)

I created this project with ReactJS. Its a single paged, not knockoff but adapted version of tenzies games that we used to played in my childhood. *Link:*

<https://github.com/thatguynischal/dicey.git>

Meme4you (Meme Generator)

This project too was created with ReactJs. This app basically fetches a random meme worthy image and we can custom insert text on it to make it even more relatable.

Link: https://github.com/thatguynischal/memes_creator.git

FlashFingers (Reaction Testing App)

I created this project with VUEJs. At random times a box appears in the screen and it times the user with fastest click on it. I got some good reviews from few gamers.

Link: https://github.com/thatguynischal/vue_reaction-timer_plus_counter.git

Centerwill Charity (Responsive Website)

This was created in a challenge between fellow UI UX designers. It uses just HTML, CSS and Tailwind.
